

INTRO  
TO  
GULD

A new P2P  
**Decentralized  
Internet.**

# FUTURE OF THE INTERNET

## #Current State

- + Censorship
- + Identity theft
- + Fraud
- + Loss of privacy
- + Fragmented authentication

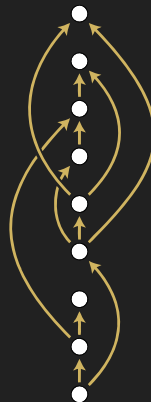

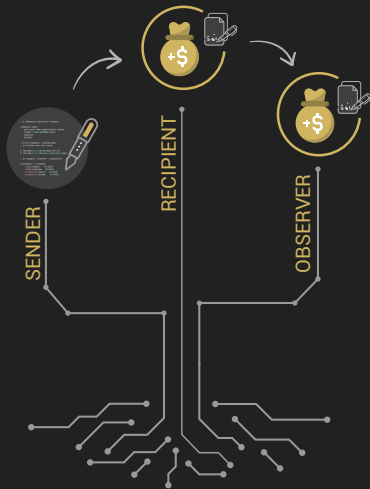

## #Solutions

- + Public key cryptography
- + Encryption
- + Official keyring (identities)
- + Standards for development
- + p2p everything

# THE BLOCK TREE
